

# ECHO AND SONAR

## NEW PULL HANDLES

# Echo Solid Pull Handles

Designed by Christina Roberts, this pull was designed to support the look and feel of a British classic, the Range cooker. The most important aspect of the design was to have a deeper leading edge than others on the market, to create a stronger line and distinctive feel.

As part of our new Made to Measure service, you can select custom lengths up to 1 metre, allowing full flexibility. Available in our, 9 solid brass finishes as well as solid Burnished Brass and solid Burnished Nickel.

Shown here in Polished Brass.

Up to 11 finishes per design, visit [turnstyledesigns.com](https://turnstyledesigns.com)

Sizes available

50mm  
100mm  
150mm

# Echo Solid Hammered Pull Handles

The Echo is also available hand-hammered, adding a further dimension and texture to the design. With six hammered finishes to choose from, these pulls will stand out in any project.

Part of our Made to Measure service, we can supply custom lengths up to 1 metre. Available in six different hammered metal finishes.

Shown here in Polished Nickel.

# Sonar Solid Edge Pull Handles

Our latest range of flush-fitted cabinet pulls, designed by Christina Roberts, are inspired by both sound and movement. Christina created a statement lip edge pull, by increasing the size for both practical and visual purposes.

This product is part of our Made to Measure service where it can be supplied to any length up to 1 metre. Available in our, 9 solid brass finishes as well as solid Burnished Brass and solid Burnished Nickel.

Shown here in Fine Antique Brass.

Up to 11 finishes per design, visit [turnstyledesigns.com](http://turnstyledesigns.com)
